ABOUT ME

Motivated engineering student with a strong foundation in programming using C and Java, and a keen interest in Computer Science and emerging technologies. Demonstrates good problem-solving abilities, logical thinking, and a willingness to learn new concepts. Eager to apply programming knowledge to real-world applications, work collaboratively in team environments, and continuously enhance technical and professional skills.

EDUCATION

KLH University , Bachupally , Hyderabad , India.

Degree In Computer Science And Information Technology(2025-2029)

Relevant Courseworks : Introduction to programming , Data Structures

Resonance Junior College , Kukatpally , Hyderabad , India.

Intermediate | 2023-2025

Pursued MPC

PROJECTS

Zylex-Deepfake Detection Engine

Project Overview:

- Zylex is an AI-powered deepfake detection engine designed to identify morphed images and manipulated videos.
- Web platform for deepfake and fake content detection
- Blockchain-based secure storage for malicious content
- Fake chat scanner, AI awareness chatbot, and community reporting system

My Role:

- Designed and developed the full responsive web interface
- Focused on usability and smooth user experience

Pocket Pal-Your Personal Expense Tracker

Project Overview:

- Pocket Pal is a teen-friendly expense tracker for managing expenses, budgets, and monthly reports
- Features a gamified interface with badges for healthy spending habits
- Includes an EMI calculator for better financial planning

My Role:

- Responsible for complete project documentation
- Prepared project reports, user guides, and system documentation
